My name is IGIRANEZA Alain Providence.

Declaration of Originality | Mobile Application Development SWE 3409 | Individual Assignment 2

Item	Detail
Full name	IGIRANEZA Alain Providence
Registration number	25/28075
App name	AlainPortfolio
Verification code	MOB-A2-8075
Repository	MOB_A2_2528075

Declaration

I declare that this submission is my own individual work. I selected the content, design, written biography, skills, education and projects myself, and the projects described are real projects I worked on. I did not copy another student's work.

Third-party libraries used (React Native, Expo, React Navigation, AsyncStorage, Expo Image Picker) are open-source packages that I installed through npm. I understand the code I am submitting and can explain how it works.

The app stores only low-risk data on the device and does not contain passwords, tokens or private keys.

Use of AI tools

I used an AI assistant (Claude) to understand the structure of the app code and the documents. I reviewed, ran, tested and personalised the result. Details are in evidence/AI_USE.
